# Bruno Dunay Acevedo Rivas

**Full Stack Developer · Angular · Node.js · TypeScript · SQL**

Aguascalientes, Mexico · +52 449 396 5327 · cesardunah@gmail.com · linkedin.com/in/brunodunay · github.com/BrunoDunay · portafolio-web-chi-ten.vercel.app

## PROFESSIONAL PROFILE

Full stack developer building complete web applications with Angular, TypeScript, Node.js, Express, PostgreSQL and MongoDB. I have shipped production systems for real clients: a coaching platform with a private portal for each client, a website with an admin panel and booking calendar, and a university website migration with its enrollment system. A design background gives me a strong eye for UI/UX. I use Claude Code in my daily workflow and review and test the code it produces. English B2.

## TECHNICAL SKILLS

**Frontend:** Angular (CLI, Reactive Forms, Routing, RxJS, HttpClient), TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS, Tailwind CSS, Bootstrap, responsive design

**Backend:** Node.js, Express, REST APIs, JWT authentication, role-based access control, validation and error handling

**Quality and security:** automated testing with Vitest and Supertest, OWASP practices (role-based access control, login rate limiting, zod validation, helmet and CORS, bcrypt, upload validation), dependency auditing with npm audit and GitHub Actions (CI)

**Databases:** SQL (PostgreSQL), MongoDB · **Other:** Python (PCEP), Salesforce (Apex, LWC, SOQL), Git/GitHub, Scrum, Jasmine/Karma, Cypress, Vercel, Netlify, Cloudinary, Claude Code

## PROFESSIONAL EXPERIENCE

**Freelance Full Stack Developer** · Clients in Aguascalientes — 2026 – present

- **Fitness by Evidence** (fitnessbyevidence.netlify.app): public website, coach panel and private client portal built with Angular, Node.js, Express and PostgreSQL. Training and nutrition plans with calorie, macro and training volume calculations previously done by hand in spreadsheets. JWT authentication and REST API.
- **Armando Ovalle Wedding Studio** (armandoovalle.netlify.app): wedding photographer website with an availability calendar and an admin panel to manage galleries, packages and bookings without relying on a developer. Images hosted on Cloudinary.
- **Graduation Records Generator** (actas-grado-unade.vercel.app): web tool that automatically generates a university's graduation records from a form.
- 130 automated tests (Vitest and Supertest) across both production systems, including API security tests. OWASP-based security audit: fixed 10 known vulnerabilities in dependencies; every change runs tests and a dependency audit in CI (GitHub Actions).
- Websites for local businesses in partnership with a marketing agency, plus 9 industry demo sites (gym, healthcare, photography, real estate, coffee shop).

**Web Developer** · Universidad Internacional de Aguascalientes Mar 2025 – Apr 2026

- Redesigned and migrated the institutional website (iinternacional.edu.mx) from Next.js to Angular.
- Replaced static PDF program sheets with dynamic views of the academic offering.
- Built an enrollment form backed by PostgreSQL that replaced a manual Excel process.
- Built an admin panel with search, filters and organization of applicant records.
- Fixed critical production issues with external image loading by moving to internal storage.
- UI/UX improvements, technical support and work with academic and administrative teams.

**Full Stack Developer (hands-on projects)** · Inadaptados Nov 2024 – 2026

- Cafeteria POS (Angular, Node.js, Express, MongoDB): real-time inventory, automatic discounts based on purchase history, sales tickets and JWT authentication with admin/seller roles. Security audit: fixed a race condition that oversold stock, passwords written to logs and NoSQL injection, each with an integration test (31 tests).
- Full stack e-commerce: catalog, cart, users and orders with REST APIs (CRUD), backend validation and error handling. Security audit: fixed client-side price tampering, access to other customers' data (IDOR) and leaked password hashes (20 integration tests).
- Scrum teamwork: sprints, planning, dailies, branches and pull requests on GitHub.

## EDUCATION

**B.Eng. in Software Development (includes Associate Degree in Web Development, 2027)** · Inadaptados In progress · expected 2028

**Master's Degree in Teaching Competencies for Digital Transformation** · Universidad Internacional de Aguascalientes 2025 – 2026

**Bachelor's Degree in Design and Content Production** · Universidad Cuauhtémoc Aguascalientes · GPA 9.24/10 2021 – 2024

**Full Stack Developer Bootcamp (MEAN)** · Inadaptados Nov 2024 – Jul 2026

## CERTIFICATIONS AND AWARDS

- **First place**, internal JavaScript competition (2025).
- **Certified Junior Angular Developer**, certificates.dev · certificates.dev/c/a1e70b4c-35b2-47b2-b7e3-2e15dd06010b
- **PCEP, Certified Entry-Level Python Programmer**, OpenEDG Python Institute · verify.openedg.org/?id=LY2Q.T9O2.hLrj
- **Salesforce Platform Developer Trailmix** (Trailhead): data model, Apex, SOQL/SOSL, triggers, security, Flows, Lightning Web Components and Salesforce DX · salesforce.com/trailblazer/odfagwrgiay0reulat

**Languages:** Spanish (native) · English B2 (advanced)
